

FOR IMMEDIATE RELEASE:

Vaughn Thermal Corporation and Cope-Wardell-Ammon Associates announce their new partnership

Salisbury, MA January 17, 2017 – Vaughn Thermal Corporation and Cope-Wardell-Ammon Associates (“CWA”) are proud to announce their new partnership throughout the Pennsylvania plumbing and heating wholesale markets. CWA—reporting and collaborating through Don Flynn, Vaughn’s National Sales Manager, and Ken Ladd, Vice President of Sales—will represent the entirety of Vaughn’s longstanding, comprehensive line of cement lined water heaters, as well as several new products Vaughn plans to release during 2017.

About Vaughn

Headquartered in Massachusetts since 1961, Vaughn Thermal Corporation is the world’s leading manufacturer of cement lined water heaters. The company manufactures electric, solar and indirect water heaters for residential applications, and also designs and builds electronic energy controllers and electronic devices used by electric utilities for load controlling water heaters. For more information, visit <http://www.vaughncorp.com>.

About Cope-Wardell-Ammon Associates

CWA (circa 1931) is a full service manufacturers’ representative firm providing marketing, sales support and warehousing of plumbing supplies and related products in Eastern Pennsylvania, Southern New Jersey and Delaware. CWA operates out of a modern office/warehouse in the greater Philadelphia area. Principles of the firm are Mark Ammon and James Wardell. Additional information is available at <http://www.cwaassociates.com/>.
